

Marketplace Lunch

Thursday, March 22, 2018

11:30 am – 1:00 pm

Technology and Automation for Commercial Spaces

As technology advances, many companies find themselves playing catch up. It is up to us to live on the edge of innovation. From sound masking and lighting control to wireless presentations in board rooms, join us to find out what our tech future holds. With integrated technology, productivity, efficiency and communication can be increased and enhanced. Join us and hear ZIO explain how these emerging tech solutions can complement and even bring a business to the forefront of their industry.
